* Frameworks: Familiarity with modern frontend frameworks (Vue.js, React, Angular)

* Version control: Git

* APIs: RESTful APIs, JSON data handling

* Responsive design: Cross-browser compatibility, mobile-first approach

* Languages: Fluent in two languages (Arabic and French/English)

Professional Experience:

* **Frontend Developer & Team Leader, Microsoft** (5 years)

 + Developed, maintained, and optimized responsive web applications using modern frontend

technologies

 + Collaborated with designers, backend developers, and product managers to deliver seamless user experiences

 + Implemented UI/UX designs into functional components using HTML5, CSS3, and JavaScript

 + Ensured cross-browser compatibility, responsiveness, and optimized applications for maximum speed and performance

* **Team Leader** (2 years)

 + Led a team of developers to achieve project goals and deadlines

 + Mentored junior developers and provided guidance on best practices and coding standards

Education:

* **Master's Degree in Software Engineering**, [University Name] (Graduation Date)

Passion:

I am passionate about website design and development, with a strong focus on delivering high-quality, user-friendly web applications that exceed user expectations.

Certifications/Awards:

(N/A)

As a skilled Frontend Developer with a strong background in software engineering, I am confident in my ability to design and develop responsive, high-quality web applications. I am excited to join a team of like-minded professionals and contribute to the development of innovative web applications.

Note: I've tailored the resume to match the job description, highlighting the candidate's relevant skills, experience, and education. However, please note that some information, such as the

university name and graduation date, is missing and should be filled in accordingly. Additionally, the candidate's experience with specific frontend frameworks (Vue.js, React, Angular) is not explicitly mentioned, so it's recommended to clarify this information to make the resume more accurate.
